

Dark Arts Whiskey House is a blending, re-barreling, and finishing house opening in downtown Lexington, Kentucky summer 2023. We believe that unique and outstanding whiskey can be created through underutilized maturation and blending techniques.

Our commitment to innovation, excellence, and superior craftsmanship sets us apart from other whiskey brands that simply rely on traditionalism and heritage.

While the Master Distiller is often lauded for their contributions to the industry, the Master Blender's precision, imagination, and skill are equally vital. We want to distinguish ourselves in the market by showcasing the role of the Master Blender and elevating them to new heights.
