93 POINTS - Wine Enthusiast 2022
GOLD - London Spirits Competition 2023

Full Circle Craft Distillers Co. is the first authentic craft distillery in the Philippines, located in Calamba, Laguna. Their goal has been to handcraft and launch a world-class line of artisanal spirits on the global stage to prove that the Philippines can compete, world-wide, with the very best craft spirit brands.

Their Archipelago (ARC) line highlights a passion and commitment to craft, precision, and excellence. Using time-honored techniques and processes, Full Circle produces their spirits on state-of-the-art equipment. Archipelago also works to promote inclusive development that helps connect farmers to supply chains and creates local opportunities for employment.

ARC Lava Rock Vodka is filtered over lava rocks from the Philippine volcanoes of Taal and Mayon. This leads to an extremely smooth, crisp and clean spirit that celebrates their handcrafted, artisanal distilling processes.

Every step of their craft distilling process is genuine and real. They proudly and transparently share each step of their process, with an aim to educate and uplift.

Integrity

They proudly handcraft their artisanal spirits using time-honored traditions and techniques. No shortcuts, no smoke, no mirrors.

Precision

They embrace ingenuity and innovation to push the envelope of the possible. They apply research, history, and best practices to their work.

Craft

They are committed to true craft, which means small-batch, copper distilled, handcrafted spirits.

Pride of Place

With each spirit they aim to capture the essence and character of the Philippine Archipelago's rich flora and transform it into a single magical moment of sensory enlightenment.
