Bank Note

Blended Scotch Whisky

A base with 40% malt content, compared to most blends that only have 10-20% malt whiskey in the blend. The Bank Note brand was established in 1870. Slowly matured in oak casks to produce a mellow taste with sweet richness and good depth of flavor, for a timeless appeal. It is a whiskey with a light and fresh aroma, vanilla sweetness and delicate fruit notes. A soft feel on the palate develops into gentle and subtle spice flavors with a mellow and pleasing sweet oak finish.
