TEQUILA

1940

MIL NUEVE CUARENTA

The beginning of this legacy is born from the red earth of Jesús María, in the highlands of Jalisco, among abundant fields of blue agave and the vision of Don Ricardo López, who thanks to his passion for work and dedication for many years, has made Casa Campo Azul a reference in the art of making tequila of the highest quality.

1940 is a very important year for us.
It was the year of the birth of our founder, Don Ricardo López, who decided to venture into the world of tequila,inheriting all of his father's knowledge about the growing and caring of agave azul in his hometown Jesús María, Jalisco in the Highland's region.

Founder
