- ◆ Scotch Whisky
- ◆ Irish Whiskey

Our Infinite Barrel Project is a constantly evolving whiskey that is different with each bottling date. After we remove a portion of the Infinite barrel to bottle, we replace it with mature whiskeys. The result is an ever changing and increasingly complex whiskey. Our February 12, 2018 bottling contains Tennessee Whiskey and Rye, Indiana Rye, Indiana Whiskey finished in Oloroso sherry butts, 100% Polish Malted Rye finished in Curaçao barrels, Scotch Whisky, and Irish Whiskey.

Appearance: The bronze core dissolves into wisps of gold leaf cascading into brilliantly polished silver that is marbled with honey bubbles.

Nose: Spring strawberries and raw clover honey followed by bursts of smoked fruit and unsweetened cocoa, coated with marzipan and walnuts.

Palate: Thick slabs of cast iron seared gingerbread painted with a molten wash of frizzled shallot brown butter.

Finish: Crunchy pork skin, sumptuous, candied yam pudding pudding and deeply toasted, corn hushpuppies dusted with confectioners sugar, lead into tiny bursts of sea salt, orange zest and sizzling hot chili peppers.

At Barrell Craft Spirits, our goal is to find and select barrels of great tasting, high quality spirit. We craft products that explore the unique effects of different distillation methods, barrels and aging environments, and bottle them at cask strength. Every batch is a limited release and has an intentionally distinct flavor profile. We take pride in producing, preserving, and presenting spirits to the people who enjoy them most. Lift your spirits.™
