

PROPERTY OF PACIFIC EDGE IMPORTS, AGOURA HILLS, CA

## HAUS ALPENZ

### Zirbenz Stone Pine Liqueur

Enjoy on its own as a digestive, with tonic or soda, or in cocktails incorporating gin or hoppy beer.

Zirbenz draws all of its high alpine flavors and natural earthy red colors from the freshly picked fruit of the Arolla Stone Pine grown in the Austrian Alps. The young full cones are still fresh and sweet, giving a smooth layer of berry fruit over an intricate, pine-floral backbone, with a slight minty freshness.
