

R. JELÍNEK

Original Czech Distilleries

Plums have played an important role in the production of alcoholic beverages throughout central Europe for centuries. At the beginning of the 18th century there was a group of people in Bohemia (Czech Republic) who realized plums were very suitable for the production of locally produced distilled spirit which eventually came to be known as slivovitz (plum brandy). According to the old manuscripts and ledgers there were approximately 70,000 plum trees known to be in existence at the time

in the area surrounding Vizovice (Czech Republic). In fact so abundant was the fruit the area was known as The Valley of Plums.

After being in the business of distilling most of his life Jakub Jelinek's son Zikmund started the family tradition of distilling their own slivovitz by setting up a private distillery in 1894. Over 100 years later the company still produces the historical brand of R. Jelinek Slivovitz.
