

PROPERTY OF PACIFIC EDGE IMPORTS, AGOURA HILLS, CA

Three Pins Alpine Herbal Liqueur

A traditional mountain villa herbal liqueur made from a proprietary blend of over a dozen herbs and flowers, most of which are found along the alpine trails and remote mountain passes.

The alpine herbs are blended with small amounts of ginkgo biloba, Echinacea, coriander and orange zest before they are mixed with spirits and aged in small glass carboys. When the time is right, the botanicals are strained from the liqueur, and it is bottled. The Pins is not filtered, allowing the full flavors of the botanicals to express themselves in each bottle.
