

PROPERTY OF PACIFIC EDGE IMPORTS, AGOURA HILLS, CA

Rocky Mountain Blackberry Whiskey

Every aspect of the distilling process is done by hand with painstaking detail.

Using a blend of blackberries harvested throughout the Rocky Mountains, we crush the berries using a bladder press and collect the juice. We then blend our whiskey with the blackberry juice, then finish it in used bourbon barrels. Aging adds barrel flavors to the complexity of the Blackberry whiskey, adding vanilla, toffee and brown sugar to the finish.
