APPLE JACK

R. JELINEK & APPLE JACK might sound like a bit surprising “combination” especially for Jelinek Plum Brandy lovers. Nevertheless, we can assure you that the company tradition established by the Jelinek family in 1894 is full of plums as well as apples.

Since we are truly the Fruit Brandy specialist, after Plum, Pear and Apricot, we can´t wait to introduce our 100% Apple Brandy in the USA.

With more than 100 years of experience we were inspired to choose the Golden Delicious varieties of apples from our own orchards.

R. Jelinek Master blenders came up with a special “double wood” aging for a minimum of 3 years. Starting with new oak barrels and continuing the process in American Bourbon Casks, we were able to create a smooth yet full-bodied Apple Brandy.
