

# Ron Caribe Rum

Casa D'Aristi is known for their outstanding and unique Mayan spirits, and Ron Caribe Rum is no exception. Ron Caribe is made in Mexico. Its name pays homage to the Caribbean coast.

Given Yucatan's sultry climate, Mexico produces some of the finest sugar cane in the world, and only the best is used to produce Ron Caribe, making it one of the finest rums produced in Mexico.

Although the newest technologies are employed, Ron Caribe Rum is made according to traditional principles perfected in the early 1900s. The Aristi family has accumulated generations of expertise producing the highest quality rum that the Yucatan has to offer. Francisco Montejo founded the first Yucatan cane plantation in 1540, and built a processing mill on the plantation where the Casa D'Aristi hacienda stands today.

## Ron Caribe Silver

A fine expression of the Mexican fiesta spirit. The cane is harvested by hand once a year, preserving its rich flavor, and then processed through 'wooden grinders'. The juice is extracted and filtered to enhance the richness of flavor once again.

40% alc/vol

Ideal for mixologists' most innovative creations. Create delightful Ron Caribe cocktails like the Caribe Citrus, Caribe Libre and Cranberry Caribe.

## Ron Caribe 5 year-old

Casa D'Aristi has created this aged rum to the highest standard of exquisite quality. Rich and mellow tones are achieved through ageing in the tropical climate of the Yucatán Peninsula, resting in special American oak barrels previously used to store Bourbon. Ron Caribe 5 year-old is a Mayan gem appreciated by rum aficionados and casual enthusiasts alike.

**Highly Recommended**

Ron Caribe Silver

"Clear. Hints of whole pistachio, moss, and custard. Softly textured with a dryish, oily medium body and sweet cream, grassy earth, mint cookie, and gently peppery finish. A solid, understated mixing rum."
