► ETSU JAPANESE GIN PACIFIC OCEAN TASTE

45° / 70 CL

Etsu is a handcrafted gin born from an ancestral recipe and means “pleasure” in Japanese.

Made at the Asahikawa distillery on the northern island of Hokkaido, Etsu Pacific Ocean Water gin is distinguished by the use of water drawn from the depths of the Pacific Ocean during the distillation process. For added strength and character, this gin is distilled with botanicals after 22 hours of maceration.

The iodised flavour of this exceptional gin highlights the botanicals, including Japanese yuzu and bitter orange.

A true ode to Japan, Etsu Pacific Ocean Water is ideal for adding a touch of originality to your cocktails or to enjoy with a tonic.

TASTING NOTES

APPEARANCE : Clear, transparent.

NOSE : Fresh and iodised, where notes of yuzu, bitter orange, and sea breeze intertwine.

PALATE : Smooth and balanced, revealing a gentle salinity enhanced by citrus and soft spices.

FINISH : Silky and persistent, with a lasting impression of mineral freshness and yuzu zest.
