JAM Session Whiskeys

STEEL STRING Bourbon Whiskey with Honey

Steel String is amazing luxury sipping whiskey

Steel String is a soft, smooth luxury sipper. Steel String layers the oaky coffee and dark chocolate of the bourbon with aromas of honey, caramel, toasted oak, toffee, and french vanilla. STEEL STRING is a flavor and style collaboration with rising country pop artist Mark Taylor. His soulful pop infused country sound reflected in this soft honeyed whiskey. The interplay of the astringent white oak, the peppery spice of hard kernel rye and the mellow tones of sweet corn whiskey and pure California honey create a unique easy to drink sophisticated whiskey.

Appearance

Red Cherry Wood

Nose & Palate

Steel String guitars have a bright crisp sound, with a deeper more percussive bite than their softer, classical nylon brothers. We have tried to capture that energy in Steel String Bourbon.

Mash Bill

Steel String is a high rye bourbon. Sweet yellow corn and flaked hard kernel rye create a sweet, and spicy beer.

70% Corn

23% Rye

7% Malted Barley

Steel String opens with grainy, woody and fruity notes along with hints of sweet caramel and grass, maple syrup, and a dark stout punctuated with ginger snap, lemon grass, peppermint and toasted almonds. Everything is wrapped in subtly sweet honey notes

Steel String finishes with toasted caramel, and a delicate fruitiness with traces of creamy buttery toffee.

Finishing

After we mature the whiskey in American Oak, we soften the flavors with a variety of French Oak. Golden toasted oak lends vanilla and butterscotch notes, and then hard charred oak deepens the whiskey. Steel String is then moved to lightly toasted American Oak to add a bit more tannic astringency to support the subtle sweetness of the honey infusion. When the whiskey is mature, we create a simple syrup of Sierra Nevada mineral spring water and pure honey and bring the whiskey to proof.
