

# TORO ALTENO

## TEQUILA

Toro Alteno is made using traditional methods at Productos Finos de Agave. Productos Finos de Agave has remained a family-owned and operated business since it opened its distillery in 1996. They are focused on only producing the highest quality tequilas with excellent flavor.

*Toro Alteno means Bull from El Alto in Spanish.*

Los Altos is a town in the Jalisco Highlands (Los Altos de Jalisco) where tequila has a rich tradition and history. The Productos Finos de Agave distillery is located in these Jalisco Highlands in a small town called Jesus Maria.

The red volcanic soils and abundant sunshine in this region are perfectly suited for growing the finest blue weber agave. The region of Jalisco's highlands is well recognized for having the best blue Agave (always more expensive than others in the region). Agaves that are grown in this highlands area are larger and sweeter in aroma and taste. (By contrast, lowland tequilas are more herbaceous).
