## STORIES YOU CAN DRINK®

Every Filmland Spirits release is based on an original movie script dreamt up by the Filmland storytellers. The characters and universes we invent pay homage to the B-Movies of the mid-twentieth century. Robots and monsters, heroes and villains, big, over-the-top plots and settings are all part of each of the Filmland worlds we build. The movies on the label go hand in hand with the liquid in the bottle. The story is the whiskey and the whiskey is the story. They are meant to be experienced, explored and enjoyed together.

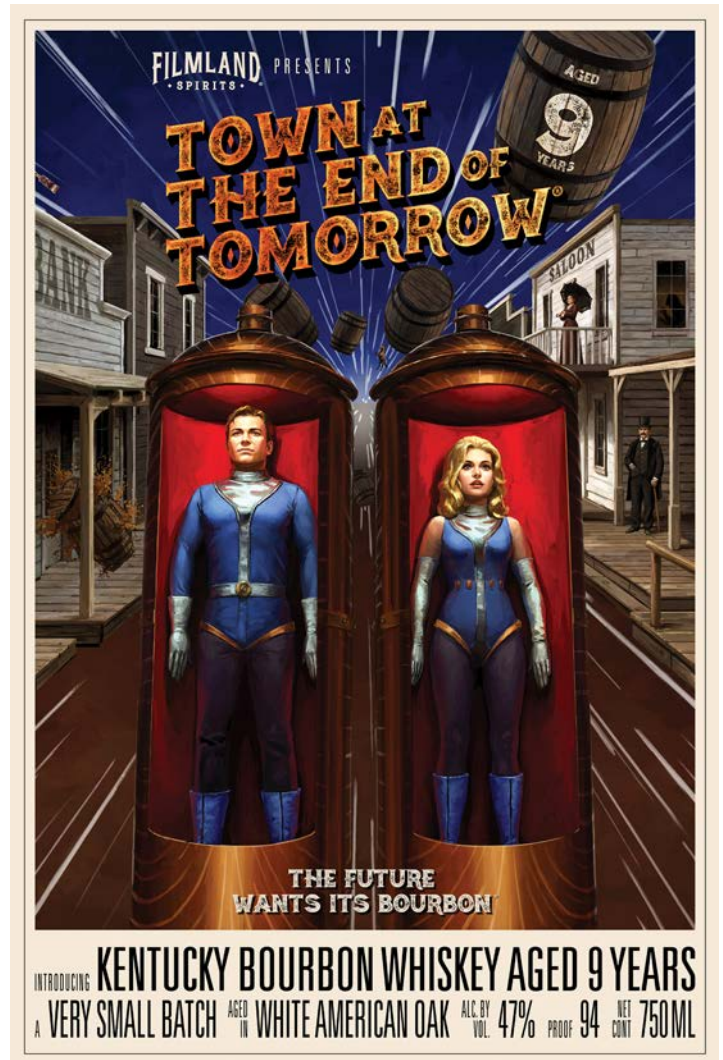

## THE FUTURE WANTS ITS BOURBON

By 2060, The Great Bourbon Boom led to whiskey shortages and civil conflict.

To stem the tide of violence, the government passed the UnBonded Act outlawing spirits older than 2 years.

New Bardstown is now the center of the whiskey universe and home to distillers Connor and Emerald Cooper who long for the finely-aged good stuff.

Together, they travel back through time to the birth of America's native spirit - where they must confront their teetotaling forefather, Judge Barker, in an epic battle for the bourbon ages.

**CONNOR COOPER**  
THE LEGACY

Sixth generation whiskey maker, Connor longs for the good-old-days of aged bourbon. His passion inspires his scientist cousin to break the laws of the time.

**EMERALD COOPER**  
THE PRODIGY

A certified genius, Emerald creates a bridge to 19th Century Bardstown, where she and her cousin Connor undertake an epic quest for history's best barrels.

**JUDGE JERICHO BARKER**  
THE TYRANNY

Connor and Emerald's despotic ancestor, Judge Jericho learns of their transtemporal scheme and sets out to end bourbon for all time - past, present, and future!
