PRESENTING THE DRIFTWOOD MANHATTAN

It seems quite right that a vermouth maker and a whiskey distiller should come together to produce a delicious, ready-to-drink aromatic Manhattan Cocktail. Driftwood Manhattan is just such a creation from Driftwood Libations – a collaboration between Mr. P. Andrew Taylor of Hammer & Tongs and New Deal Distillery founder, Tom Burkleaux. They've bottled their expertise, so you can easily enjoy this perfectly mixed cocktail by simply chilling and pouring.

WHY CHOOSE A READY-TO-POUR COCKTAIL?

After a long day at work, not everyone has the time, patience, or know-how to make a balanced cocktail – but thankfully, we do. Now – with our Driftwood Manhattan – you needn't worry. Hosting some friends for a pre-func cocktail? Our Driftwood makes it simple. Enjoy sipping on a cocktail while preparing dinner? We got your back. Unwinding on your own? Let us fix you a drink.
