

LIMITED RELEASE
WHISKEY DISCOURSE:
THREE SHORES
WORLD WHISKEY

Production & Tasting Notes:

The third release in our WHISKEY DISCOURSE series, THREE SHORES WORLD WHISKEY, is all about a conversation within whiskey-making traditions. This "discourse" involves a conversation with iconic whiskeys from three different countries: a Highland Scotch, our own American high rye Whiskey, and a deep, rich and smooth Canadian Whiskey.

The process begins with the HIGHLAND SCOTCH and the CANADIAN WHISKEY going into AMERICAN OAK barrels for up to one year of additional aging. This is when the integration begins. All three whiskeys have influence from the American Oak that will later contribute to the beautiful balance that we were able to achieve in this WHISKEY.

DISTILLER'S TASTING NOTES: "A whiff of smoke coupled with sweet sea brine on the nose of THREE SHORES starts the conversation. This is followed by a spicy clove and cinnamon note, contributing a complexity mid-palate on its way to a lingering finish of rich, ripe pear and candied stone fruit."

"All three Whiskeys are top representations of their respective styles. The goal here was to create something that excels beyond the individual components—the sum is definitely greater than the parts in this well-balanced spirit. Enjoy this conversation. I'm sure you'll agree that it gets all the more interesting when diverse opinions are bellied up to the bar."
